PROFILE

I am a highly responsible and dedicated individual who is passionate about my work. In my spare time, I engage in personal projects and continuously study various topics related to IT. I have a strong love for web development, which drives many of my hobbies and interests. However, to maintain a healthy work-life balance and avoid burnout, I also indulge in my favorite hobbies, such as playing the guitar and 3D modeling. Additionally, I enjoy composing music for personal enjoyment in FL Studio. My diverse interests and dedication to both professional and personal growth make me a well-rounded and motivated individual, always eager to learn and take on new challenges.

EDUCATION

- CNU (computer science): 2020 - now
- MPMC (medical assistant): 2016-2020

EXPIRIENCE

Junior Developer at E-Logic Ecommerce

SalesForce Developer (6 months)

- Developed and maintained applications using the SalesForce platform to enhance E-Logic's e-commerce solutions.
- Collaborated with a team to implement new features and optimize existing processes, ensuring high-quality and efficient solutions.

Projects:

- Inventory Management Program (Angular/ NestJS)
Link: [inventorymgr-client](#)
Developed a comprehensive inventory management system to streamline product tracking and warehouse operations. This project involved creating a user-friendly interface for managing inventory, tracking stock levels, and generating reports.
- Florist Website (React/NodeJS)
Link: [FloristAngular](#)
Designed and developed a website for a floristry business using Angular. The site features an elegant design, showcasing various floral arrangements and services. It includes functionalities for browsing products, placing orders, and contacting the business.
- Carpet Sales Website (Angular/NestJS)
Link: [Bontex](#)
Developed a website dedicated to the sale of carpets. This project involved creating an e-commerce platform where users can browse and purchase a wide range of carpets. The site includes features such as product search, detailed descriptions, and a secure checkout process.
