PROFILE

A Web Developer with a Bachelor's degree in Computer Science from Petrozavodsk State University, bringing over three years of extensive experience in TypeScript and React. I combine formal education with continuous self-directed learning to stay at the forefront of web technology, seeking to leverage this knowledge in a forward-thinking development team.

KEY COMPETENCIES

Languages:

- HTML & CSS
- JavaScript (ES6+)
- TypeScript

Technologies:

- React.js
- Node.js
- Next.js

• MongoDB

• SQL

• Git & GitHub

• Command Line Proficiency

WORK EXPERIENCE

Freelance

Oct 2023 - Present

Web Developer

- Independently managed and delivered custom web development projects for various clients.
- Developed engaging user interfaces and ensured optimal functionality across multiple web applications.
- Created a client-specific application, tailoring the UI/UX to meet unique business needs.

Frontend Developer

June 2023 - October 2023

Reeéal

- Developed user-friendly AR application interfaces with React.js.
- Integrated frontend components with RESTful APIs.
- Played a key role in UI/UX design decisions, improving overall user engagement.

PROJECTS

Crypto Tracker

- Built a web application for tracking cryptocurrency data in real-time.
- Ensured accurate financial data fetching through API integration.
- Designed a user interface focusing on ease of navigation and efficiency.

Personal Blog Platform

- Developed a personal blog to share technical knowledge and experiences.
- Implemented a content management system using Node.js.
- Ensured responsive design for access from various devices.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Science, Petrozavodsk State University, Russia

Introduction to Programming, Web Technologies,
Database Fundamentals
Graduated: June 2021

Web Development Bootcamp (2023)

HOBBIES

- Keen interest in web technology trends and best practices.
- Developing small-scale projects to improve coding skills.
- Engaging with the online development community through gaming.
- Self-study of emerging web technologies and frameworks.

ACHIEVEMENTS

- Successfully deployed responsive web applications enhancing user experience.
- Collaborated with designers and backend developers to meet project deadlines.
- Applied performance optimization strategies that reduced load times significantly.
- Applied knowledge of databases to improve data retrieval efficiency.

ADDITIONAL INFORMATION

I am committed to growth and excellence in web development. My educational background, coupled with a passion for continuous learning, positions me well to contribute meaningfully to a team's success. I am currently seeking opportunities that will challenge me and allow me to bring fresh perspectives to web development projects.
